

# REGISTRATION MARKS

Every helicopter in our fleet bears a Transport Canada registration mark (also referred to as a “call sign” or “tail number”), which is a unique string of characters that’s similar to a car’s license plate.

These registration marks all begin with the prefix “C-G” or “C-F”, followed by three additional letters that have largely been chosen by the entire STARS team and that hold special meaning for us.

**1**

**“KLY”**  
Recognizes our first patient, Kelly Waldron.

**6**

**“WRC”**  
A thank you to the government and allies of Alberta: “Wild Rose Country.”

**2**

**“LCI”**  
Acknowledges Lions Club International as pioneering STARS donor.

**7**

**“NPT”**  
Short for a phrase that summarizes why we exist: “For the Next Patient” who needs us.

**3**

**“LLS”**  
Represents “Land of Living Skies” in honour of the Government of Saskatchewan’s commitment to STARS.

**8**

**“DRP”**  
Pays homage to STARS founder Dr. Greg Powell.

**4**

**“FRG”**  
Recognizes Rod Gantfoer, who was instrumental in founding STARS’ operations in Saskatchewan.

**9**

**“IFP”**  
Salutes the patients at the centre of everything we do: “Fight in Flight for the Patient.”

**5**

**“MBQ”**  
Named in honour of our Manitoba allies and in reference to our legacy BK117 aircraft, “MBU.”

**10**

**“LNK”**  
A nod to the hard-working professionals in the STARS Emergency Link Centre, who are known as “Linkees.”
